## **MEMORANDUM OF POINTS AND AUTHORITIES**

## I. INTRODUCTION

The Court should dismiss this action and deny this motion for class certification as moot. But this motion also fails on the merits. Plaintiff Edie Golikov fails to “prove” “by a preponderance of actual evidence” that each Rule 23 requirement is satisfied. *Black Lives Matter L.A. v. City of L.A.*, 113 F.4th 1249, 1258 (9th Cir. 2024). Her scant evidence falls far short of this burden and cannot survive the “rigorous analysis” required by Rule 23. *Wal-Mart Stores, Inc. v. Dukes*, 564 U.S. 338, 351 (2011). Many reasons compel denial.

***No Common Questions/Predominance.*** Golikov fails for lack of common questions or proof. In this purported mislabeling action, Golikov must prove the court can adjudicate common questions of deception and reliance at a class level. She cannot do either.

- *No Classwide Adulteration Means No Classwide Deception.* Golikov’s entire claim rests on whether she can produce evidence of *systematic* adulteration of the Avocado oil. She cannot. The only competent evidence—from Walmart’s sole avocado oil supplier—confirms all Walmart Great Value avocado oil contains nothing but unadulterated avocado oil. Golikov offers no competent evidence that *any* bottle was adulterated, much less of systematic adulteration affecting an entire class. *If* the Court were to credit Golikov’s limited evidence, that shows at most that any “adulteration” affects only a handful of bottles, and thus requires individualized, bottle-by-bottle testing to determine whether and how any label is deceptive—far from the classwide proof required.

- *No Evidence of Materiality, Reliance, or Deception.* Golikov papers over gaps in evidence with an “expert” declaration of Thomas Maronick, a repeatedly discredited professional plaintiff’s expert. But Rule 37 bars Golikov from relying on testimony from this undisclosed expert. Further, Maronick’s

1 declaration is pervasively flawed and fails to demonstrate classwide materiality,  
2 reliance, or deception.

3 • *No Classwide Damages.* Golikov offers only her counsel’s testimony  
4 identifying the “price premium” between Avocado Oil and a vegetable oil on a  
5 single day. Courts routinely reject such evidence, as it fails to tether the price  
6 difference to the class’s actual injury, and cannot be extrapolated to four years of  
7 purchases. Her “full refund” damages model is inapplicable and also fails.

8 • *Individual Class Waivers.* Golikov’s putative class includes customers  
9 bound by Walmart’s arbitration and class waiver provisions, which creates  
10 numerous problems precluding class certification.

11 ***Myriad Other Rule 23 Failures.*** Failures of common proof and the  
12 individual nature of these claims infect every one of the remaining Rule 23  
13 elements. Without evidence any avocado oil was adulterated at all, Golikov fails to  
14 show basic factors such as numerosity, typicality, superiority, or adequacy. And her  
15 deposition no-show, misrepresentations, and rule violations underscore inadequacy.  
16 Those same rule violations also individually warrant denial in themselves.

17 The Court should deny this Motion.

## 18 **II. FACTUAL ALLEGATIONS AND PROCEDURAL HISTORY**

### 19 **A. Golikov Alleges the Avocado Oil Is “Impure.”**

20 Walmart owns retail stores that sell, among other products, its Great Value  
21 Refined Avocado Oil (the Avocado Oil). FAC ¶ 5. The Avocado Oil’s front label  
22 states it is “Refined Avocado Oil,” and the back of the label includes an ingredient  
23 disclosure, which lists “avocado oil.” *Id.* ¶¶ 17–18. The label does not include the  
24 word “pure.” *See id.* Immediately below the ingredient disclosure, the label  
25 discloses that it “MAY CONTAIN TRACES OF MILK, WHEAT, SOY AND  
26 SESAME.” (Lyon Decl. Ex. 10.)

27 Golikov contends she and other “reasonable consumers” read the Avocado  
28 Oil label to represent the product is “pure,” i.e., the “product [] contains only

1 avocado oil.” FAC ¶ 19; *id.* ¶ 42. She alleges the Avocado Oil is “adulterated”  
2 with “other oils” and that “[s]he would not have purchased [it] at the price she paid  
3 if she had known [it] was contaminated with other oils.” *Id.* ¶¶ 5–6, 20, 26. Based  
4 on these allegations, Golikov brings statutory and common law claims for false and  
5 misleading advertising on behalf of a putative class of nationwide consumers, and a  
6 California consumer subclass.

7 On January 10, 2025, Walmart moved to dismiss the FAC. (ECF 37.)  
8 Walmart’s Motion to Dismiss will be heard on February 10, 2025 concurrently with  
9 this Motion. (*Id.*)

10 **B. Golikov Moves for Class Certification.**

11 On January 8, 2025, Golikov filed this Motion for Class Certification.

12 On January 9, 2025, the Court struck Plaintiff’s Motion for failure to comply  
13 with Local Rule 7-3 and 11-6.2, and ordered Golikov to file a corrected motion  
14 within “1 day.” (ECF 35.) Golikov had not previously conferred with Walmart  
15 regarding its anticipated Motion; on January 9, 2025, Golikov’s counsel emailed  
16 Walmart to “confirm” that Walmart “opposed.” (Harper Decl. ¶¶ 3–4, Ex. 1.)  
17 Walmart’s counsel responded, “we oppose. And we are still reviewing the bases.”  
18 (*Id.*) Golikov refiled her Motion on January 10, 2025. (ECF 36.)

19 **C. Plaintiff and Her Counsel Refuse To Appear For Depositions.**

20 Immediately after receiving Golikov’s Motion, Walmart served discovery  
21 related to the previously undisclosed evidence therein. On January 10, Walmart  
22 served a notice for Golikov’s January 15 deposition. Golikov failed to appear for  
23 her deposition, despite failing to apply for a protective order. (Harper Decl. ¶ 5,  
24 Exs. 2, 4.) Walmart has also served subpoenas for deposition and documents on  
25 Golikov’s newly disclosed expert, Maronick, on January 14, and the laboratory that  
26 conducted Golikov’s testing on January 17. (*Id.* ¶ 6, Exs. 6–7.) Despite its  
27 diligence, Walmart could not obtain any of this discovery before its January 17  
28 opposition deadline.

1 **III. LEGAL STANDARD.**

2 To certify a class, “the plaintiff[] must affirmatively demonstrate by a  
3 preponderance of actual evidence that they satisfy all the Rule 23 prerequisites,”  
4 *Black Lives Matter L.A. v. City of L.A.*, 113 F.4th 1249, 1258 (9th Cir. 2024),  
5 including “prov[ing] [] there are in fact sufficiently numerous parties, common  
6 questions of law or fact,” typicality of claims or defenses, and adequacy of  
7 representation.” *Comcast Corp. v. Behrend*, 569 U.S. 27, 33 (2013). “The party  
8 must also satisfy through evidentiary proof at least one of the provisions of Rule  
9 23(b).” *Id.* “[C]ertification is proper only if the trial court is satisfied, after a  
10 rigorous analysis, that the prerequisites of Rule 23[ ] have been satisfied” by the  
11 preponderance of the evidence. *Id.* “Plaintiffs wishing to proceed through a class  
12 action must actually *prove*—not simply plead—that their proposed class satisfies  
13 each requirement of Rule 23[.]” *Haliburton Co. v. Erica P. John Fund, Inc.*, 573  
14 U.S. 258, 275 (2014).

15 **IV. PLAINTIFF FAILS TO PROVE COMMONALITY AND  
16 PREDOMINANCE.**

17 Golikov fails to prove commonality or predominance under Rules 23(a)(2)  
18 and 23(b) as to multiple elements of her claims.

19 Rule 23(a) commonality requires “questions of law or fact common to the  
20 class.” Fed. R. Civ. P. 23(a)(2). “[T]he court must [] find...questions that are  
21 ‘central to the validity’ of the claims and capable of being resolved ‘in one stroke.’”  
22 *Black Lives Matter*, 113 F. 4th at 1258. “[T]o certify a damages class under Rule  
23(b)(3), the burden is even higher: the district court must find that common  
24 questions predominate over individual ones.” *Black Lives Matter*, 113 F.4th at  
25 1258. “Showing predominance is difficult, and it regularly presents the greatest  
26 obstacle to class certification.” *Id.* “If the main issues in a case require the separate  
27 adjudication of each class member’s individual claim or defense, a Rule 23(b)(3)  
28

1 action would be inappropriate.” *Zinser v. Accufix Research Institute*, 253 F.3d  
2 1180, 1189 (9th Cir. 2001).

3 This is a false advertising case, so Golikov must “point to common evidence  
4 other than alleged misrepresentations themselves to establish that the question of  
5 likelihood of deception can be resolved on a classwide basis.” *Vizcarra v. Unilever*  
6 *U.S., Inc.*, 339 F.R.D. 530, 548 (N.D. Cal. 2021) (lack of evidence regarding  
7 deception or materiality precluded commonality). Further, “plaintiffs must have  
8 some means of proving materiality and reliance by a reasonable consumer on a  
9 classwide basis in order to certify a class.” *Kosta v. Del Monte Foods, Inc.*, 308  
10 F.R.D. 217, 225 (N.D. Cal. 2015). “[I]f a misrepresentation is not material as to all  
11 class members, the issue of reliance varies from consumer to consumer, and no  
12 classwide inference arises.” *In re ConAgra Foods, Inc.*, 302 F.R.D. 537, 576 (C.D.  
13 Cal. 2014). Golikov must also prove by a preponderance of the evidence that the  
14 “damages are capable of measurement on a classwide basis.” *Townsend v. Monster*  
15 *Beverage Co.*, 303 F. Supp. 3d 1010, 1043 (C.D. Cal. 2018).

16 Golikov fails to meet her burden on commonality and predominance, as she  
17 (1) has no classwide proof of deception, because she has no classwide evidence of  
18 adulteration; (2) fails to offer competent common evidence that reasonable  
19 consumers would be misled by the label, or find any misrepresentation material; (3)  
20 presents no competent classwide damages model; and (4) defines her class to  
21 include consumers who must arbitrate their claims individually.

22 **A. No Proof of Common Adulteration or Deception.**

23 Golikov’s motion fails because she cannot muster common proof of  
24 classwide deception or adulteration—the basis of all of her claims.

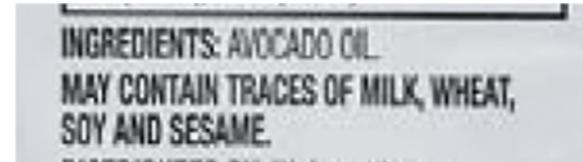

25 **1. Supplier Confirms Product Contains Only Avocado Oil**

26 Walmart’s supplier declaration establishes the Avocado Oil is in fact only  
27 avocado oil. (Supplier Decl. ¶¶ 3–9.) Walmart’s supplier attests that multiple  
28 rounds of testing—both before and after it is packaged for delivery to retail stores—

1 confirm *each batch* of Avocado Oil sold over the past four years is in fact avocado  
2 oil containing no other oils. (*Id.*) Golikov *cannot* offer classwide evidence of  
3 adulteration, because there is none.

4 **2. *McConnon* Shows No Common (or Any) Deception**

5 Like the dismissed claims in *McConnon v. Kroger*, 2024 WL 3941340, at \*3  
6 (C.D. Cal. June 21, 2024), Golikov presents no clear theory or evidence of falsity—  
7 i.e., what exactly is wrong with the Avocado Oil that renders the label deceptive.  
8 Her vague assertions it is potentially “adulterated” with unspecified “cooking oils”  
9 fails to set forth any common problem for which there could be classwide proof.  
10 (Mot. 7.) Her theory is also fatally undermined by the label itself, which clearly  
11 discloses the product it “MAY CONTAIN TRACES OF MILK, COCONUT,  
12 WHEAT AND SOY,” which advises consumers that traces of cooking oils like  
13 soybean oil and sesame oil may be present. (Lyon Decl. Ex. 10.)

14 **3. Purported “Testing” Doesn’t Show Classwide Adulteration**

15 Golikov’s purported “testing” fails to evidence classwide adulteration.  
16 *Pascal v. Nissan N. Am., Inc.*, 2022 WL 19076763, at \*10 (C.D. Cal. Dec. 21, 2022)  
17 (denying certification where plaintiff failed to “articulate how [expert evidence] can  
18 identify or prove a common defect”). At most, her testing of four bottles reflects  
19 only individualized issues with a handful of bottles, likely from post-sale single-  
20 bottle contamination or testing errors.  
21

22 **(a) U.C. Davis Studies.**

23 The U.C. Davis studies Golikov relies upon themselves explain why she  
24 cannot prove commonality. It observes there are “significant differences in the  
25 quality and purity of oil from different lot numbers, even when sourced from the  
26 same retailer.” (Lyon Decl. Ex. 3 at 1, 5; Ex. 5 (ECF 36-3 at 51).) Thus, the studies  
27

1 reflect testing *results* for a product will vary from bottle to bottle, requiring  
2 individualized testing. This is reflected in Walmart’s suppliers own practices: each  
3 batch is separately tested for purity and quality, both before and after it is processed  
4 and bottled. (Supplier Decl. ¶¶ 3–9.)

5 Further, the study shows that the *cause* of the oil variation will also differ  
6 from bottle-to-bottle and lot-to-lot, as it acknowledges that causes *other than*  
7 *adulteration* – including differing harvest time, cultivars, geography, and **the**  
8 **refining process itself** – can explain variances in test results. (*Id.*, Ex. 2 at 3, Ex. 3  
9 at 6.) Thus, not only are the results inconsistent between the bottles of the Avocado  
10 Oil, but they admittedly do not necessarily show the avocado oil contains anything  
11 other avocado oil. This evidence cannot pass rigorous examination under Rule 23.

12 **(b) Attorney-Based Lab Test.**

13 Golikov’s test of a single bottle of avocado oil (obtained a day before filing  
14 this motion) fares no better. (Lyon Decl. ¶ 15, Ex. 11.) The testing results are not  
15 properly authenticated; unreliable; and provide no information about how to  
16 interpret the results (except her counsel’s incompetent say-so) or any details of the  
17 testing, such as the methodology applied, relevant control variables, testing  
18 conditions, or applicable standards. (*Id.*); *Watts v. Allstate Indem. Co.*, 2013 WL  
19 210059, at \*12 (E.D. Cal. Jan. 17, 2013) (denying certification after excluding  
20 expert testimony that lacked any “presentation of her methodology”).

21 Golikov offers purported expert testimony interpreting the test—that of her  
22 counsel, Richard Lyon, who submits two sentences of conclusory, double-hearsay  
23 testimony based on what an unidentified individual at the lab “informed” him.  
24 (Lyon Decl. ¶ 15 & Ex. 11.) Lyon does not even testify that he is qualified to issue  
25 such expert opinions. The Court must discard this testimony and report as detailed  
26 in Walmart’s evidentiary objections. *See Angulo v. Providence Health & Servs. –*  
27 *Wash.*, 2024 WL 3744258, at \*9 (W.D. Wash. Aug. 9, 2024) (denying class  
28

1 certification; declining to consider counsel’s testimony as “counsel is not a medical  
2 professional and thus cannot provide expert testimony”).

3 And there is good reason to doubt this bottle was adulterated at all:  
4 Walmart’s supplier conducted multiple tests on the *same lot* from which this sample  
5 was drawn, and found that the product consisted of 100% avocado oil. (Supplier  
6 Decl. ¶¶ 10–11.)

7 Even if the Court credits Golikov’s test, evidence as to a single bottle of  
8 avocado oil cannot constitute common proof that *all* bottles purchased in California  
9 over the past four years are commonly adulterated. *Pascal*, 2022 WL 1907673, at  
10 \*10 (excluding expert testimony where it presents “no method” behind  
11 “extrapolation” of defect to class products). Given Golikov’s sparse testing, she  
12 fails to show her results are the product of anything other than testing error or after-  
13 sale contamination. Further, Walmart’s evidence that its tested bottles *do* contain  
14 only avocado oil shows Golikov *cannot* show any uniform defect, and that batch-  
15 by-batch, lot-by-lot, and bottle-by-bottle testing to determine whether each label is  
16 false or misleading will plague this case. (Supplier Decl. ¶¶ 3–9.)

17 Because of this, her claimed adulteration is not as clearcut as in the false  
18 advertising cases she cites. *E.g., Amavizca v. Nutra Mfg.*, 2021 WL 682113, \*6  
19 (C.D. Cal. Jan. 27, 2021) (product did not contain “Glucosamine Sulfate” as  
20 claimed), *decertified*, 2021 WL 4945242 (C.D. Cal. June 15, 2021); *Clevenger v.*  
21 *Welch Foods Inc.*, 342 F.R.D. 446 (C.D. Cal. Sept. 13, 2022) (box contained less  
22 product than competitors).

23 **B. No Common Proof of Materiality/Reliance or Deception.**

24 Golikov also fails to “point to common proof that is *capable of* establishing  
25 materiality or deception “on a classwide basis.” *Vizcarra*, 339 F.R.D. at 552. A  
26 statement is material if “consumers’ behavior would vary as to whether they would  
27 buy the [avocado oil] products if they saw the [challenged] disclosure.” *Webb v.*  
28 *Carter’s Inc.*, 272 F.R.D. 489, 502 (C.D. Cal. 2011). The statements must also be

1 likely to deceive “a significant portion of the general consuming public or of  
2 targeted consumers, acting reasonably in the circumstances.” *Townsend*, 303 F.  
3 Supp. 3d at 1044.

4 Golikov relies on a consumer survey and testimony from Professor Thomas  
5 Maronick, whose testimony has been excluded at least eleven times.<sup>1</sup> It should be  
6 excluded on the same basis, and for failure to disclose under Rule 37(c)(1).

7 **Survey Doesn’t Say What Golikov Claims.** Golikov misconstrues the survey  
8 results to argue “69.7% of consumers were deceived by Walmart’s labeling, and  
9 73.0% of consumers considered this deception material to their purchasing  
10 decision.” (Mot. 10.) The survey shows no such thing. For starters, the survey  
11 respondents were not limited to actual purchasers of the Avocado Oil, and includes  
12 consumers who “purchased or ***considered purchasing***” certain oils “in the past six  
13 months.” (Maronick Decl. ¶¶ 9–10, 12 & Ex. D at 25 (emphasis added).) Courts  
14 have repeatedly found this exact defect renders Maronick’s surveys and testimony  
15 irrelevant. E.g., *Townsend*, 303 F. Supp. 3d at 1044 (“Dr. Maronick’s report does  
16 not provide insight into consumers’ purchasing decisions” where respondents “were  
17 not necessarily persons who purchased [products at issue]”); *Bruce*, 2013 WL  
18 6709939, at \*7 (problems with Maronick’s survey were “manifold” including “the  
19 survey respondents were not necessarily actual putative class members”). With no  
20

---

21 <sup>1</sup> *Townsend*, 303 F. Supp. 3d at 1026–33; *Bruce v. Teleflora, LLC*, 2013 WL  
22 6709939, at \*7 (C.D. Cal. Dec. 18, 2013); *Tran v. Sioux Honey Ass’n, Cooperative*,  
23 471 F. Supp. 3d 1019, 1029 (C.D. Cal. 2020); *Johns v. Bayer Corp.*, 2013 WL  
24 1498965, at \*28 (S.D. Cal. Apr. 10, 2013); *F.T.C. v. Wash. Data Res.*, 2011 WL  
25 2669661, at \*2 (M.D. Fla. July 7, 2011); *Wilson v. Odwalla, Inc.*, 2018 WL  
26 3250161, at \*1–2 (C.D. Cal. June 22, 2018); *Seacret Spa Int’l v. Lee*, 2016 WL  
27 880367, at \*2 (E.D. Va. Mar. 8, 2016); *Wish Atlanta, LLC v. Contextlogic, Inc.*,  
28 2015 WL 7761265, at \*12 (M.D. Ga. Dec. 2, 2015); *New Look Party Ltd. v. Louise  
Paris Ltd.*, 2012 WL 251976, at \*10 n.8 (S.D.N.Y. Jan. 11, 2012); *City of  
Goodlettsville, Tenn. v. Priceline.com, Inc.*, 2011 WL 1595847, at \*2 (M.D. Tenn.  
Apr. 27, 2011); *Scotts Co., LLC v. Pennington Seed, Inc.*, 2014 WL 12591406, at \*8  
(E.D. Va. Feb. 26, 2014).

1 data on whether respondents purchased Walmart’s Avocado Oil (or any avocado  
2 oil), the survey provides *no* “insight into consumers’ purchasing decisions” as  
3 required to show materiality. *Townsend*, 303 F. Supp. 3d at 1044.

4 **Materiality/Reliance.** The survey does not establish consumers considered  
5 any part of Walmart’s label to be a factor in their purchasing decision. The survey  
6 asked respondents the importance of “purity” in their decision to buy avocado oil.  
7 (Maronick Decl. ¶¶ 12, 16 & Ex. D at 28.) Walmart’s label makes no  
8 representation as to purity and such questions are insufficiently tethered to the  
9 challenged statements. (*Id.* ¶ 11); *McConnon*, 2024 WL 3941340, at \*3 (“pure”  
10 does not appear on the bottle); *see Scotts*, 2014 WL 12591406, at \*8 (excluding  
11 Maronick’s testimony as he did not “isolate out the incremental impact” of  
12 challenged statements). Golikov theorizes that “Walmart misleads consumers”  
13 because the front label (1) “prominently states ‘Avocado Oil’”; (2) “includes  
14 images of avocadoes,” and (3) “the back label lists only a single ingredient:  
15 Avocado Oil.” (Mot. 2.) But the survey did not ask about, or measure, how any of  
16 these statements factored into consumers’ purchasing decision. *See Townsend*, 303  
17 F. Supp. 3d at 1045 (“a survey needs ‘to assess whether the challenged statements  
18 were in fact material to consumers’ purchases’”).

19 The survey also shows respondents considered multiple factors aside from  
20 “purity” in their purchasing decision, and *made no attempt to compare them*. (*Id.*  
21 ¶¶ 14, 16 & Ex. D at 25, 28.) Materiality thus “varies from consumer to consumer.”  
22 *Algarin v. Maybelline, LLC*, 300 F.R.D. 444, 457 (S.D. Cal. 2014) (no common  
23 proof with evidence of “varying factors that influence purchasing decision”). This  
24 alone defeats Golikov’s Motion. *Townsend*, 303 F. Supp. 3d at 1048 (failure to  
25 show “a common answer to the question of whether a reasonable consumer would  
26 consider any of the challenged statements a material misrepresentation” is “grounds  
27 alone” to deny class certification).

28

1        **Deception.** The survey does not establish consumer deception, as it shows  
2 *most* consumers believed the avocado oil *could* contain “other oils.” (Maronick  
3 Decl. ¶ 15 (57.9% indicated it was between “somewhat likely” and “extremely  
4 unlikely” that product contains only avocado oil).) Respondents thus had a variety  
5 of expectations of the Avocado Oil after reviewing the labels and did not steadfastly  
6 believe, as Golikov alleges, that it was “pure.” (*Id.*); *Algarin*, 300 F.R.D. at 454,  
7 457 (denying class certification where survey reflected product conformed to over  
8 half of purchasers’ expectations). Golikov’s evidence shows deception cannot be  
9 established with classwide proof.<sup>2</sup> With no classwide materiality or deception,  
10 Golikov is not entitled to an inference of reliance and the Court should deny her  
11 Motion. *Townsend*, 303 F. Supp. 3d at 1043 (“If the misrepresentation ... is not  
12 material as to all class members, the issue of reliance would vary from consumer to  
13 consumer and the class should not be certified.”).

14        **C. No Predominance Because No Classwide Proof of Damages.**

15        Golikov must also—but cannot—prove the “damages are capable of  
16 measurement on a classwide basis.” *Townsend*, 303 F. Supp. 3d at 1043 (citing  
17 *Comcast*, 569 U.S. at 35). Plaintiff must prove “by a preponderance of the  
18 evidence,” *Van v. LLR, Inc.*, 61 F.4th 1053, 1069 (9th Cir. 2023), that the damages  
19 model “measure[s] only those damages attributable to [plaintiff’s] theory [of  
20 liability],” *Comcast*, 569 U.S. at 35. For plaintiffs alleging that product labeling is  
21 misleading, the appropriate damages are the “price premium,” i.e., the difference  
22 between the price paid and the actual value of the product, attributed to the alleged  
23 misrepresentation. *See In re POM Wonderful LLC*, 2014 WL 1225184, at \*2–3

24  
25        <sup>2</sup> Ms. Golikov’s consumer-survey caselaw is distinguishable. *Gunaratna v. Dennis*  
26 *Gross Cosmetology LLC* relied on results an expert concluded was “statistically  
27 significant.” 2023 WL 5505052, at \*16 (C.D. Cal. Apr. 4, 2023). *Johnson &*  
28 *Johnson-Merck Consumer Pharms. Co. v. Rhone-Poulenc Rorer Pharms., Inc.* did  
not address whether 20% of consumers being misled is sufficient to establish  
deception under the Lanham Act. 19 F.3d 125, 136 (3d Cir. 1994)

1 (C.D. Cal. Mar. 25, 2014). Such plaintiffs are typically foreclosed from full refund  
2 damages. *Id.* Golikov presents both a full damages model and a price premium  
3 model of damages. Neither works.

4 **1. The Price Premium Model Fails.**

5 Golikov’s price premium model fails because she does not isolate the  
6 premium attributable to the misrepresentation. (Mot. 15.)

7 Golikov argues that because consumers “received a cheaper mix or blend of  
8 different types of oils” price premium damages are “readily calculable” by  
9 subtracting the price of the Avocado Oil from the price of Walmart’s Great Value  
10 Vegetable Oil. (Mot. 15–16.) Golikov does not proffer a damages model supported  
11 by conjoint analysis or a hedonic regression model, but rather asks the Court to rely  
12 solely on testimony from her counsel, Rick Lyon, and the prices he pulled from  
13 Walmart’s website on December 19, 2024. (Mot. 16; Lyon Decl. ¶ 2.) Courts  
14 regularly reject such categorical price comparisons, as they “do[] not even attempt  
15 to isolate the [price] amount attributed solely to the alleged misrepresentation” and  
16 the “inadequacies are [thus] readily apparent.” *Algarin*, 300 F.R.D. at 460–61;  
17 *POM Wonderful*, 2014 WL 1225184, at \*5 (rejecting damages evidence where  
18 expert “assumed, without any methodology at all” “that 100% of that price  
19 difference was attributable to Pom’s alleged misrepresentations”).

20 The comparison to Vegetable Oil also cannot “measure only those damages  
21 attributable to [plaintiff’s] theory [of liability],” as Golikov does not contend she  
22 purchased a bottle of vegetable oil repackaged as avocado oil,<sup>3</sup> but rather a product  
23 “adulterated” with some type of other oil in an undefined amount. *See Comcast*,  
24 569 U.S. at 35. She fails to offer any other evidence that Walmart’s Vegetable Oil

---

25  
26 <sup>3</sup> Ms. Golikov’s cited authority is inapposite on this basis. *Dickey v. Advanced*  
27 *Micro Devices, Inc.*, 2019 WL 251488 (N.D. Cal. Jan. 17, 2019) (price comparison  
28 between “4-core” and “8-core” products acceptable as damages model where  
plaintiffs alleged they were deceived into purchasing a “4-core” product labeled as  
“8-core”).

1 is an appropriate comparison for the Avocado Oil (or even that it contains vegetable  
2 oil), or is otherwise sufficiently tethered to her or the class's claimed injury. And  
3 Mr. Lyon is not an economist qualified to opine on the relative value of such  
4 products. *See Angulo*, 2024 WL 3744258, at \*9 (class counsel cannot obtain  
5 certification by testifying as expert).

6 **2. The Full Refund Model Fails.**

7 As noted *supra*, full refund damages are generally inappropriate in food  
8 mislabeling cases. *See POM Wonderful*, 2014 WL 1225184, at \*2–3; *Caldera v*  
9 *J.M. Smucker Co.*, 2014 WL 1477400, at \*4 (C.D. Cal. Apr. 15, 2014).

10 Golikov offers no evidence that consumers received *no value* from the  
11 Avocado Oil; indeed, she claims she would have paid a lower price for the same  
12 product. (Golikov Decl. ¶ 4); *Reitman v. Champion Petfoods USA, Inc.*, 830 F.  
13 App'x 880, 881 (9th Cir. 2020) (affirming order rejecting full refund model where  
14 plaintiff “fail[ed] to explain ... how the [defect] renders the product completely  
15 valueless”). Because she admits she received some value from the product, her  
16 “full refund” theory of damages fails. *Caldera*, 2014 WL 1477400, at \*3–4 (full  
17 refund improper where “class members undeniably received some benefit”).

18 **D. No Predominance Because Class Definition Includes Waivers**

19 Golikov also cannot satisfy predominance because individual issues will  
20 dominate as to whether class members (including Golikov) waived class relief.  
21 Golikov's class definition—encompassing “all persons who, within the state of  
22 California...purchased Great Value Avocado Oil”—includes any buyers of the  
23 Avocado Oil regardless of source, whether in brick-and-mortar stores or online.

24 Walmart's website—through which consumers make online purchases—is  
25 governed by Walmart's Terms of Use (TOU). The TOU include an arbitration  
26 agreement and class action waiver, in which customers “agree to waive the right to  
27 have any dispute or claim [adjudicated] as a . . . class action,” as to “ALL

1 DISPUTES ARISING OUT OF OR RELATED TO . . . ANY ASPECT OF THE  
2 RELATIONSHIP BETWEEN YOU AND WALMART.” (Harper Decl. Ex. 8.)

3 This class waiver creates insurmountable problems. Golikov’s broad class  
4 definition includes all purchasers *regardless of whether they are subject to the*  
5 *arbitration and class provisions*, a problem creating inevitable and obvious  
6 predominance problems. *Avilez v. Pinkerton Gov’t Servs.*, 596 F. App’x 579, 579  
7 (9th Cir. 2015) (vacating class certification where only some class members subject  
8 to class action waiver); *Campanelli v. Image First Healthcare Laundry Specialists,*  
9 *Inc.*, 2018 WL 6727825, at \*7 (N.D. Cal. Dec. 21, 2018) (denying certification  
10 where plaintiff not subject to class members’ class waiver). A narrower class  
11 definition would not help here, as any attempt to exclude class members subject to  
12 the arbitration agreement inevitably would require case-by-case determinations to  
13 determine whether any individuals qualify. *Tan v. Grubhub, Inc.*, 2016 WL  
14 4721439, at \*3, \*5 (N.D. Cal. July 19, 2016). And Golikov herself may be subject  
15 to the arbitration agreement (an issue the parties easily could have resolved had  
16 Golikov shown up for her January 15 deposition). If Golikov is subject to  
17 arbitration and waiver, then she cannot even serve as a plaintiff, much less class  
18 representative, given this potential unique defense. *Hamilton v. TBC Corp.*, 328  
19 F.R.D. 359, 393 (C.D. Cal. 2018) (denying class certification where plaintiffs were  
20 subject to unique defenses).

21 **V. PLAINTIFF FAILS TO MEET OTHER RULE 23 REQUIREMENTS**

22 Golikov also fails to carry her burden as to the remaining Rule 23  
23 requirements.

24 **A. No Evidence of Numerosity.**

25 “A party seeking class certification . . . must be prepared to prove that there  
26 are in fact sufficiently numerous parties” with actual evidence. *Wal-Mart*, 564 U.S.  
27 at 352. A plaintiff cannot satisfy numerosity with mere “common-sense and  
28

1 reasonable inferences.” *Wang v. Def. Tax Grp. Inc.*, 2020 WL 6204578, at \*2 (C.D.  
2 Cal. Aug. 10, 2020)

3 The only competent evidence in the record—Walmart’s supplier  
4 declaration—shows the class size is *zero*, as no adulteration occurred, meaning no  
5 class members suffered the claimed harm. (Supplier Decl. ¶¶ 3–9.) As detailed  
6 *supra* 5–8, Golikov fails to establish that *any* class members purchased adulterated  
7 bottles, let alone thousands. She also falsely claims, without evidence, it is  
8 “undisputed that the proposed class far exceeds 40 people” (Mot. 6–7), but Walmart  
9 has never attested or stipulated to the number of individuals in her proposed class.  
10 Relying on bald speculation and conjecture fails to meet her burden. *E.g., Siles v.*  
11 *ILGWU Nat'l Ret. Fund*, 783 F.2d 923, 930 (9th Cir. 1986) (no numerosity where  
12 there was “no evidence” regarding how many individuals met class requirements).

13 **B. No Proof of Typicality.**

14 “The test of typicality is whether other members have the same or similar  
15 injury, whether the action is based on conduct which is not unique to the named  
16 plaintiffs, and whether other class members have been injured by the same course of  
17 conduct.” *Ellis v. Costco Wholesale Corp.*, 657 F.3d 979, 984 (9th Cir. 2011).  
18 Class certification “should not be granted if ‘there is a danger that absent class  
19 members will suffer if their representative is preoccupied with defenses unique to  
20 it.’” *Hanon v. Dataproducts Corp.*, 976 F.2d 497, 508 (9th Cir. 1992).

21 Golikov fails to show her claim is typical of the class. She fails to provide  
22 evidence of what she contends is wrong with her product or how that defect is  
23 typical of the putative class claims. *See Richey v. Matanuska-Susitna Borough*,  
24 2015 WL 1542546, at \*6 (D. Alaska Apr. 7, 2015) (no typicality where plaintiffs  
25 failed “to point to facts that show their claims are typical of the class claims”). She  
26 does not show, for example, when her bottle was purchased, the geographic origin  
27 of the oil, lot number, expiration date, or any other characteristic that would permit  
28 the Court to determine whether her claim or claimed injury is typical of the class.

1 (See Golikov Decl. ¶¶ 2–4 (vaguely describing purchase and claim).) Without a  
2 theory of falsity or proof of uniform adulteration across class products, she cannot  
3 show her own purchased bottle falls within the class claims.

4 **C. No Proof of Superiority.**

5 Golikov cannot show a class action is superior. Courts “focus on the  
6 efficiency and economy elements of the class action” in determining superiority.  
7 *Zinser*, 253 F.3d at 1190. As detailed *supra* 5–8, litigating class claims would  
8 require individualized, bottle-by-bottle testing to identify product defects.  
9 Additionally, the product is covered by Walmart’s money-back guarantee, which  
10 provides all customers the opportunity for a refund if they believe the product does  
11 not conform to label statements.<sup>4</sup> This guarantee *offers more to putative class*  
12 *members than class certification can*, because Golikov admits she (and putative  
13 class members) received some value from the product, such that a “full refund”  
14 theory of damages necessarily fails. *Caldera*, 2014 WL 1477400, at \*3–4. A class  
15 action where plaintiffs get *less* than otherwise entitled to is necessarily not superior.  
16 *E.g., Jimenez v. Domino’s Pizza, Inc.*, 238 F.R.D. 241, 253 (C.D. Cal. 2006) (no  
17 superiority where “the issues presented are to be determined based on an  
18 individual’s experience”).

19 **D. No Certification of Injunctive Relief Class.**

20 Rule 23(b)(2) certification also is not warranted.

21 *First*, injunctive relief under Rule 23(b)(2) would not benefit the class.  
22 Golikov provides only one class definition—“all persons who, while in the state of  
23 California and within the applicable statute of limitations period, purchased Great  
24 Value Avocado Oil.” (Mot. 4.) Thus, “the only potential beneficiaries of any  
25 injunctive relief”—“future purchasers”—are excluded from the class, by Golikov’s  
26 very definition. *Algarin*, 300 F.R.D at 458.

---

27  
28 <sup>4</sup> Walmart Standard Return Policy, <https://www.walmart.com/help/article/walmart-standard-return-policy/adc0dfb692954e67a4de206fb8d9e03a>.

1        *Second*, Golikov primarily seeks monetary relief that is not merely  
2 “incidental” to the requested declaratory relief. *Id.* Monetary relief predominates  
3 because the entire premise of her claims is that she “would have paid less” for the  
4 Avocado Oil. (FAC ¶ 26.) Moreover, individualized damages inquiries center this  
5 litigation because “the retail price paid” varies, and as explained above, questions  
6 regarding “subjective value” exist here. “In such a situation, the computation of the  
7 damages is not a mere ‘mechanical step’” that would be “incidental” to injunctive  
8 relief, and precludes certification under Rule 23(b)(2). *Algarin*, 300 F.R.D. at 459;  
9 *Moheb v. Nutramax Labs., Inc.*, 2012 WL 6951904, at \*6 (C.D. Cal. Sept. 4, 2012).

10        **E.     Golikov and Her Counsel Are Inadequate.**

11        For adequacy, Plaintiff must show that she and her counsel will “fairly and  
12 adequately protect the interests of the class,” Fed. R. Civ. P. 23(a)(4), including by  
13 prosecuting the action vigorously on behalf of the class. *Ellis*, 657 F.3d at 985.  
14 Golikov fails to meet her burden.

15        **Golikov.** Golikov’s conclusory assertion that “Plaintiff has no conflicts and  
16 will vigorously prosecute the case” (Mot. 11; Golikov Decl. ¶¶ 5–6), does not meet  
17 her burden, *see Angulo*, 2024 WL 3744258, at \*11 (no adequacy where plaintiffs  
18 “baldly assert” lack of conflicts). Further, Golikov’s failure to appear at properly-  
19 noticed deposition shows she is inadequate. *See Kandel v. Brother Int’l Corp.*, 264  
20 F.R.D. 630, 634 (C.D. Cal. 2010) (failure to comply with discovery requests  
21 suggests inadequacy).

22        **Counsel.** Golikov’s counsel is likewise inadequate. First, counsel violated  
23 Local Rules 7-3 and 11-6.2 and the Court’s Standing Order § 7 in filing this  
24 Motion. *Kandel*, 264 F.R.D. at 634 (counsel inadequate where they, *inter alia*,  
25 “failed to follow the Court’s local rules [and] standing orders”). Second, in an  
26 attempt to “correct” their failure to confer, counsel fabricated a history of “many”  
27 conferrals that never occurred. (Notice of Motion; Harper Decl. ¶¶ 3–4.) This  
28 underscores inadequacy. (Harper Decl. Ex. 4–5 (Non-Appearances)). *See*

*Quinonez v. Pharm. Specialties, Inc.*, 2017 WL 4769436, at \*3–5 (C.D. Cal. Aug. 10, 2017).

## **VI. PLAINTIFF'S PROCEDURAL VIOLATIONS WARRANT DENIAL.**

“Denial of a motion as the result of a failure to comply with local rules is well within a district court’s discretion.” *Tri-Valley CAREs v. U.S. Dep’t of Energy*, 671 F.3d 1113, 1131 (9th Cir. 2012). **First**, Golikov’s corrected motion (which was not filed until January 9, and therefore late per Standing Order) still does not comply with L.R. 7-3. Golikov’s only attempt to confer was untimely (January 9) and inadequate (an email asking Walmart to “confirm” that it opposed the motion). (Harper Decl. Ex. 1.) This does satisfy L.R. 7-3 and justifies dismissal. *E.g.*, *Whitaker v. Aviano, LLC*, 2020 WL 4787999, at \*3 (C.D. Cal. June 15, 2020) (denying motion for failure to confer). **Second**, Golikov’s refusal to appear for a properly noticed deposition—without serving objections or obtaining a protective order—prejudices Walmart and mandates denial. *See ABS Ent., Inc. v. CBS Corp.*, 908 F.3d 405, 427 (9th Cir. 2018) (“bright line” 90-day certification deadline prejudicial where defendant deprived of pre-certification discovery).

## VII. CONCLUSION

Golikov does not satisfy Rule 23. The Court should deny the motion.
